A TRIAL BOTTLE OF WARNER'S SAFE CURE THE WORLD'S GREAT-EST KIDNEY CURE SENT ABSOLUTELY FREE TO EVERY READER OF THE "NEWS." Gentlemen:-I wish to let you know of the good that Warner's Safe Cure

and Warner's Safe Pills have done for me.

Last spring I was stricken with what the doctors pronounced liver and kldney disease and lay in a semi-conscious state, and my death was expected at any moment. Two doctors gave me up, told my family I could not live the day out. My feet, legs and whole body were fearfully swollen, and I was so lame and according to the day out. ame and sore all over that to move in bed almost took my life. I gasped for breath and my heart's action was so unnatural as to cause serious alarm. After I had been given up to die by two doctors, my family, knowing that Warner's Safe Cure had done so much for my daughter, purchased a bottle of Warner's Safe Cure and a box of the pills, and when I was at the point of death and my clothes all waiting to dress me for my last resting place they began to give me Warner's Safe Cure. I took it every hour or two through the night and at the turn of this same night the kidneys began to act and the swellings gradually subsided. The fever abated, my lameness improved and last of all my breath became natural. I was drenched with perspiration.

The whole story told briefly is simply this:

From lying at death's door bloated from head to foot, panting for breath like a dog after a long chase, heart beating two beats and skipping two or so faint could hardly hear it, pulse a great deal over one hundred, and a stupor that could not be controlled, this was my condition when I took Warner's Cure and I can only say that it saved my life and that it is all that is claimed

The doctors called my disease hardening of the kidneys and it must be quite a surprise to the doctors to learn that I'm doing my housework. Feeling it a duty I owe to you to write of my wonderful cure, I am, yours truthfully,

The refusal of the Marconi operators to receive or transmit messages sent from the Slaby-Arco transmitters and especially the manner in which it is said the greetings of the Deutschland with Prince Henry on board were ignored at the Nantucket, Lizard and Cornwall stations, is the cause. As previously reported the German navy department has framed a bill which will be presented to parliament immediately after Easter, the purpose

of which is to give the government authority to control wireless telegraphy and make uniform rates. The emperor also is taking a hand There is no intention here of infringing upon the rights of the Marconi company, but it is asserted that the va-

CURRENCY FOR PHILIPPINES.

Dollar of Same Weight and Fineness of Mexican to be Coined.

AMERICO-ORIENTAL DESIGN.

It is Believed That in Time the New Coin Will Become Exceedingly Popular.

Washington, March 28 .- The Repubican members of the senate committee on Philippines held a meeting today and passed finally upon the provisions of the Philippine government bill. The currency question was the principa topic of conversation today and the provision for supplying the Philippines with a circulating medium as prepared by the sub-committee composed of Senators Allison, Beveridge and Dubois

was finally passed upon. This provision, as has been heretofore stated, is that there shall be coined a Philippine dollar of the same weight and fineness as the Mexican dollar and the British dollar. It is to be a bullion dollar, but the volume is to be limited only by the demands of business. The coin will carry an American device on one side and an oriental design on the other and it is calculated that it will in time be a very popular coin through-out the eastern world.

The amendment also provides for subsidiary coinage sufficient to meet the wants of the Philippine people. The coinage of this silver will be done both in America and in the Philippines. The and it is the hope of the Republican members that the authority will be given to report the bill to the senate. The provision in regard to mintage is that the Philippine currency shall be coined in the Philippines as soon as facilities are provided, but that in the meantime it may be coined in the United States mint at San Francisco Thus the dollar provided is made a local tender in the Philippines, but not in th

United States.

The Republican members at their conference also considered the question of authorizing a legislative assembly for the Philippines, but concluded to omit all legislation of that character and also to make no provision for dele gates or commissioners in Congress from the Philippines.

Provision for a complete census of the islands is, however, to be included in the bill. This is not to be a mere numbering of the people, but an inquiry into their educational attainments and property acquirements with the view of securing information of a character which may be of use in future legislation for the islands,

Good Friday More Widely Recognized New York, March 29.—The sacred character of Good Friday is becoming more widely recognized, says the Lon-don correspondent of the Tribune. Time was when Nonconformist services or Good Friday were almost and, indeed, in many parts of England was a favorite day for meetings of a more or less festive character. that, however, is rapidly changing and several Nonconformist churches were open, and in the Anglican and Roman Catholic churches the day was kept, as usual with great solemnity.
